HCS FOOD FEST

Wood Fired Pizza Oven
Food Tech Tours
Smoothie Bike
Food, Restaurant and
Hotel Exclusive Offers

On Saturday 13 June 2015 we are hosting the first 'HCS Food Fest', to celebrate the opening of our new Food Tech Centre. The event will also celebrate the vast array of fantastic food producers and creators on our doorstep in Hampshire. We would like to invite you and your family to come along and experience a fantastic afternoon of food-focussed fun!

Using the new Food Tech Centre there will be a programme of chef and cookery demonstrations using the best produce Hampshire has to offer: chefs from Hotel Terravina, The White Horse Romsey, and cookery writer Penny Ericson, who will be signing copies of her book **Meats, Eats, Drinks and Leaves**, featuring recipes from top chefs across Hampshire.

TRY THE SMOOTHIE BIKE!

With demonstrations and activities for all ages, from vegetable skittles to catering industry careers advice, food tasting, 'behind the scenes' in the School Kitchens, a real wood fired pizza oven in the shape of a turtle (!) and the very best local food producers, there will truly be something for everyone.

This mini festival offer a small taste of what we have planned for the future of our New Food Tech Centre, with a programme of talks and events over the next year including food producers and chefs coming in to talk to the pupils and inspire them, whatever their age or interest in food.

Whether you are off to university soon, wanting to win Masterchef, learn more about the best and latest farming and food production, or just wanting to decorate cupcakes for a bit of fun, everyone can find something to enjoy and learn that will enhance their broader education and add to their life skills.
Come and join us!
